**Valerio Battista**, Chief Executive Officer (CEO), commented: *“The sound margins expansion and the strong cash generation achieved in 2023 confirmed Prysmian’s resilience and the market leading position, thanks to our complete and balanced portfolio well exposed to the structural trends of the electrification and the energy transition. In a challenging environment, we achieved once again an excellent performance and ensured value creation to all our stakeholders. 2023 was my last year as CEO of Prysmian, and I am incredibly proud of the company we have built over the past 20 years, a strong organisation that is leading the industry, and that has the technology and resources to capitalize on exciting market opportunities and breaking new records year after year”*

**Massimo Battaini**, CEO-designate, stated: *“At our Capital Markets Day we laid out our “Connect, to Lead” strategy aimed at capitalizing on the Group’s leading market position to seize the opportunities presented by current market trends. We have reshaped our business into four new segments, effective from 1st January 2024 to better capture these opportunities. We continue to be at the forefront of innovation, thanks to our unparalleled R&D capabilities and our deep understanding of the evolving market dynamics. In light of our solid backlog across all segments, we are confident of achieving 2024 targets and are well on track to deliver the mid-term targets outlined at the CMD. I look forward to driving this company and our great team to the next level and to strengthening our role as global cabling solution provider leading the Energy Transition and Digital Transformation”.*

\* Organic growth

**Milan, 29 February 2024** - The Board of Directors of Prysmian S.p.A. approved the Group's consolidated results for 2023<sup>3</sup>.

**Group Sales** amounted to €15,354 million, with a slightly negative organic growth of -1.1% compared to 2022. The Projects Business reported a double-digit organic growth (+15.3%) thanks to a consistent execution of interconnection and offshore wind farm projects and projects with better margins. Sales in the Energy Business continue to benefit from the growth drivers of the energy transition: the expansion and upgrade of power grids, the energy generation from renewable sources, and the development of electric mobility and clouding. Overall, the Energy Business recorded a -1.3% organic growth, with a positive organic growth of +1.7% in the Industrial & Network Components. Volumes in the Telecom Business sharply declined in the second part of the year, mainly due to the US market downtrend.

**Adjusted EBITDA** rose by 9.4% to €1,628 million, with significantly improving margins at 10.6% compared to 9.3% in 2022. Strong improvement in the Projects Business with adj. EBITDA up 23.5% at €300 million thanks to the smooth execution and the improved project margins. The Energy Business margins improved significantly too (at 10.5% vs 8.1% in 2022), driven by higher profitability in power distribution and in particular in Industrial & Network Components, where the adj. EBITDA rose to €361 million (+43.2% vs 2022). A sharp market decline, especially in the US, negatively impacted the Telecom Business, with adj. EBITDA down to €140 million vs €271 in 2022. Q4 was particularly low, affected also by negative one-offs on top of the normal business seasonality.

**EBITDA** amounted to €1,485 million (€1,387 million in 2022), including net expenses for company reorganisations, non-recurring expenses and other non-operating expenses totalling €143 million (€101 million in 2022).

**Net profit** increased by 7.5% to €547 million (€509 in 2022). Net profit attributable to owners of the parent company amounted to €529 million (€504 million in 2022). This result is particularly positive taking into account the negative impacts of the €168 million impairment of the investment in Yangtze Optical Fiber (YOFC) and the €42 million impairment of fiber plant in Battipaglia (Italy).

**Free Cash Flow<sup>2</sup>** amounted to €724 million, up by 29.5% (€559 million for 2022), well above the upper part of the guidance (€550-650 million).

**Net Financial Debt** fell sharply to €1,188 million at year-end (€1,417 million at 31 December 2022), driven by strong cash flow generation.

<i>E&amp;I</i>	7,620	8,196	-2.7%	843	736	11.1%	9.0%
<i>INDUSTRIAL &amp; NWC</i>	3,358	3,442	1.7%	361	252	10.8%	7.3%
TELECOM	1,489	1,873	-18.9%	140	271	9.4%	14.5%
TOTAL GROUP	15,354	16,067	-1.1%	1,628	1,488	10.6%	9.3%

#### PROJECTS

Consistent execution and improved projects' margin drove solid results growth. Sales amounted to €2,508 million, with a strong +15.3% organic growth. Adjusted EBITDA leapt to €300 million (+23.5% vs 2022) with improving margins to 12.0% (11.2% in 2022).

The Group successfully completed the Vineyard Wind 1 project, the first utility-scale offshore wind farm in the US, and the record Viking Link, the world's longest onshore and offshore HVDC interconnector linking the power grids of the UK and Denmark. In the High Voltage Underground, the Group continued to produce the German Corridors cables in line with the plan and expect to start installation later this year.

In 2023, Prysmian acquired over €13 billion of new projects, bringing the total order book to approx. €20 billion (backlog + orders with solid commitment), increasing further the visibility on future performance. In February 2024, the Group received the Notice to Proceed for Amprion Frame Agreement and EGL 2 (projects awarded in 2023), bringing the total backlog up to approx. €18 billion.

#### ENERGY

##### Energy & Infrastructure

Sales in Energy & Infrastructure totalled €7,620 million with a -2.7% organic growth vs. 2022. Adj. EBITDA increased by 14.6% to €843 million (€736 million in 2022) with a strong margin improvement (11.1% in 2023 compared to 9.0% in 2022). Power Distribution and Overhead Lines recorded sustained growth and margins uplift driven by structural trends (grid hardening, renewables), while the construction cable business experienced volume softening and prices normalisation in the US, in line with expectations.

##### Industrial & Network Components

Sales of Industrial & Network Components amounted to €3,358 million with a positive organic growth of 1.7% compared to 2022. Renewables continued to grow double-digit YoY. Adj. EBITDA grew by 43.2% to €361 million (€252 million in 2022) with sound margins expansion at 10.8% compared to 7.3% in 2022. Profitability improved overall across all applications, in particular in OEM and Renewables.

#### TELECOM

Telecom sales declined to €1,489 million from 1,873 million in 2022 with a -18.9% organic growth. Adj. EBITDA was €140 million (€271 million in 2022), with margins declining to 9.4% compared to 14.5% in 2022.

Sales recorded a volume slowdown particularly in the second part of the year, mainly driven by the US market. Performance in Q4 was further affected by negative one-offs, on top of the normal business seasonality. The contribution from YOFC also was lower in 2023 at €27 million, down from €40 million of the previous year.

The long-term growth drivers for the Telecom Business remain strong driven by massive data growth as

well as the increase of FTTH, 5G coverage, datacentres and IoT. The Group is well positioned to seize the opportunities offered by digitalisation.

#### PERFORMANCE BY GEOGRAPHICAL AREA<sup>4</sup>

(in million euros)	SALES		Adjusted EBITDA	
	2023	2022	2023	2022
EMEA	6,043	6,381	433	311
NORTH AMERICA	4,557	5,132	675	722
LATAM	1,236	1,275	137	120
APAC	1,010	1,118	83	92
TOTAL (excluding Projects)	12,846	13,906	1,328	1,245
PROJECTS	2,508	2,161	300	243
TOTAL GROUP	15,354	16,067	1,628	1,488

Sales in EMEA amounted to €6,043 million with a -1.7% organic growth. Strong adj. EBITDA increase of 39.2% to €433 million (€311 million in 2022) with sound margin expansion at 7.2% (4.9% in 2022), thanks to the positive performance of the Energy Business, in particular Power Distribution and OEM & Renewables.

In North America sales totalled €4,557 million, with negative organic growth of -5.9%. Adj. EBITDA was €675 million (€722 million in 2022), with improving margins at 14.8% compared to 14.1% in 2022. The Telecom Business decline and ongoing price softening in T&I, were fully offset by the strong performance of Power Distribution & Overhead Lines. Results were partly impacted by an adverse FX headwind (€22 million).

Sales in LATAM declined slightly to €1,236 million vs €1,275 in 2022, with negative organic growth of -6.0%. Adj. EBITDA increased to €137 million (€120 million in 2022) with solid margin improvement to 11.0% compared to 9.4% in 2022, mainly driven by T&I.

In Asia Pacific sales amounted to €1,010 million (-2.3% organic growth). Adj. EBITDA was €83 million (€92 million in 2022), affected by the lower contribution from YOFC (€13 million). Adj. EBITDA margins were stable at 8.2%.

#### NEW SEGMENT REPORTING

As outlined in the Capital Markets Day, Prysmian reshapes its business into four new segments from the existing three:

1. **Transmission**, including the Submarine Power and the Land HVDC business units, currently belonging to the Projects segment;
2. **Power Grid**, including HVAC business unit, also previously in Projects, and Power Distribution and Overhead Lines, currently in the Energy segment;
3. **Electrification**, including Industrial & Construction (former Trade & Installer) and Specialties (formerly in Industrial & NWC), currently in the Energy segment;
4. **Digital Solutions**, the current Telecom segment, including the following business units: Fiber and Optical Cables, Connectivity, Multimedia & Inside Plant cables (MMS).

<sup>4</sup> Data by geographical area are stated excluding the Projects segment

The new business segmentation reporting will start from Q1 2024, effective as of January 1, 2024. For ease of reference, the main financial results posted in the last three years are disclosed below according to the new segmentation:

## ESG UPDATE

In 2023, GHG emissions (Scope 1 and Scope 2, market based) amounted to 616 ktCO<sub>2</sub>eq, down 33% compared to the 2019 baseline. While Scope 3 GHG emissions were down 10% in the same period.

Prysmian is extremely committed to decarbonization. In line with the net-zero trajectory approved by SBTi (Science Based Target initiative), the group has upgraded its decarbonization strategy, accelerating the transition plan, and therefore foresees a Scope 1 and 2 GHG emissions reduction in the range of 55-60% by 2030, going beyond the 47% target approved by SBTi.

Sound improvements were reported also on the Social and Governance Dimension. The results of the initiatives that Prysmian has implemented in recent years, together with the investments undertaken in line with its Social Ambition, allowed the company to accelerate its efforts to achieve in 2027 several 2030 targets. Particularly relevant the achievement related to the employees shareholders of the company: at the end of 2023, 46% of Prysmian employees (shopfloor workers included) resulted shareholders of the company, approaching the target of having approximately 50% of the company employees shareholders of the group.

## DIVIDEND PROPOSAL

Dividend represents an important pillar of the group Capital Allocation Strategy, as outlined at the Capital Markets Day in October. Prysmian foresees to progressively increase the total dividend distributed to shareholders by approximately 10% year-on-year.

Based on the results for 2023, the Board of Directors will recommend to the Shareholder' Meeting that a dividend of €0.70 per share be distributed (+16.7% vs. €0.60 distributed last year). The total pay-out will be approximately €191 million. If approved, the dividend will be paid out from 24 April 2024, with record date on 23 April 2024 and ex-dividend date on 22 April 2024.

## OUTLOOK

The cable industry is increasingly strategic due to long-term market trends which require resilient, high-performing, sustainable and innovative cable solutions: increased renewable generation, growing electricity demand, enhanced power grids, massive data growth. In this context, Prysmian is uniquely positioned to seize current market trends which require resilient, high-performing, sustainable and innovative cable solutions.

For FY 2024, Prysmian expects to achieve:

- o adjusted EBITDA in the range of €1,575-1,675 million
- o free cash flow in the range of €675-775 million
- o scope 1&2 GHG emission reduction of 36% and Scope 3 reduction of 13% vs 2019

At its Capital Markets Day, held on October 5, 2023, the Group presented its strategy to lead the Energy Transition and Digital Transformation – “Connect, to lead” – thereby outlining 2027 financial targets, consisting of:

- o Adj. EBITDA of €2bn (+/-€100m)
- o Free Cash Flow to €900m-1bn
- o EBITDA conversion in FCF to 47-48%
- o ROCE to 25-28%

These goals assume no material changes in both the geopolitical crisis relating to the conflicts in Ukraine and in Israel, in addition to excluding extreme dynamics in the prices of production factors or significant supply chain disruptions. The forecasts are based on the Company's current business perimeter, assuming a EUR/USD exchange rate of 1.08, and do not include impacts on cash flows related to Antitrust issues.

## FURTHER BOARD OF DIRECTORS' RESOLUTIONS

### Notice of Calling of the Ordinary Shareholders' Meeting

The Board of Directors resolved to call the Ordinary Shareholder' Meeting for Thursday, 18 April 2024 (single call).

**Authorisation to buy back and dispose of treasury shares**

The Board of Directors decided to submit to the forthcoming Shareholder' Meeting a request for the authorisation to buy back and dispose of treasury shares, after revocation of the previous resolution approved by the AGM on 18 April 2023.

The authorisation requested establishes that the total number of shares that can be purchased, in one or more tranches, cannot exceed the 10% of the share capital at any time. Treasury shares may be purchased within the limits of available reserves recognised from time to time in the most recently approved annual financial statements. The plan has a maximum term of 18 months, commencing from the date of authorisation by the AGM.

The said authorisation will be requested to:

- o create the Company's portfolio of treasury shares (so-called "stock of shares") that can be used in any extraordinary transactions (e.g., mergers, de-mergers, purchase of equity investments) and to implement the remuneration policies approved by the Shareholders' Meeting and adopted by Prysmian;
- o use the treasury shares by exercising the rights ensuing from debt instruments, whether convertible or exchangeable for financial instruments issued by the Company, its subsidiaries or third-parties (e.g., takeover bids and/or share swaps);
- o dispose of own shares in service of share-based incentive plans or share ownership plans to allot and/or purchase shares also at favourable conditions, reserved for Prysmian's directors and/or employees;
- o ensure effective management of the Company's share capital, by creating investment opportunities also on the basis of available liquidity.

The buy-back and disposal of treasury shares will be performed in compliance with applicable laws and regulations in force:

- i. at a minimum price no more than 10% below the stock's official price during the trading session on the day before each transaction is undertaken;
- ii. at a maximum price no more than 10% above the stock's official price during the trading session on the day before each individual transaction is undertaken.

At today's date, Prysmian S.p.A. directly and indirectly holds 3,729,074 own shares.

**Appointment as the independent auditors for the period 2025-2033**

The publication of the Integrated Annual Report for the year ended 31 December 2014 will coincide with the end of the nine-years engagement of EY S.p.A. to audit the accounts of Prysmian; according to applicable law, this engagement cannot be renewed. The Board of Directors, in agreement with the Board of Statutory Auditors, resolved to submit to the Shareholders' Meeting the statutory audit engagement for financial years 2025 - 2033, a year in advance of the natural expiry of the current EY S.p.A. engagement. The shareholders will make their decision based on a recommendation proposal by the Board of Statutory Auditors, regarding both the firm to engage for the statutory audit and the fees payable for this engagement.

The required documentation will be made available within the deadlines provided by applicable regulations.
