

POWER AND COMMUNICATIONS MOVE THE WORLD. WHO MOVES THEM?

Energy and telecommunications: the world's two great challenges. Prysmian has the know-how, the technology, and can draw on over 130 years of experience to improve the transport of energy and telecommunications, on the ground and under the sea. Present in 36 countries, with 54 plants and 7 R&D centres in Europe, the United States and in South America and with over 12.000 employees, the Prysmian Group is a world-leader in the production of cables and systems: an achievement built on its strong commitment to research and innovation.
