

# FTTH Streetside Cabinet

Prysmian Part Number: *XJTSC00280*

The FTTH Streetside Cabinet is a distribution/drop off access point within a blown fibre network. The cabinet allows a blown fibre cable of up to 24 tubes to be connected and distributed to up to 24 single tube blown cables. The cabinet is lockable to prevent unwanted access.

## Features and Benefits

- For the distribution of a Blown Tube cable of up to 24 tubes.
- Up to 24 single tube Blown Fibre cables can be distributed out.
- Fully removable front to allow easy access to the working area.
- Lockable front to prevent unwanted access.
- All tubes positively managed to a 50mm Ø to allow continuous blowing.
- Cables are anchored using 2 cable ties per cable.
- The cabinet is supplied with 24 x 5mm tube connectors.
- Designed for outdoor environments and fully compatible with Sirocco Blown Fibre System.
- Cabinets are manufactured from 1.5mm galvanised steel.
