

Verticasa Storage Reel

Prysmian Part Number: XBFSC00362

The Verticasa Storage Reel is used to temporarily store an extracted fibre module before installation into a customer drop tube. The reel ensures that the extracted fibre is kept safe from damage, and is stored to the correct bend radius. The fibre module can be simply wound onto the reel as the fibre module is extracted, and wound back off when the fibre module is ready to be installed into the drop tube.

Features and Benefits

- Used to temporarily store an extracted fibre module.
- Inner diameter of 180mm ensures fibre bend radius is not compromised.
- The fibre module can be wound on the reel as its extracted from the riser cable.
- Light weight plastic construction.

Kit Contents

- The Verticasa Storage Reel is supplied by itself and requires no additional items.

Technical Data

- Reel inner diameter: 180mm
- Reel flange diameter: 230mm
- Reel Height: 65mm
- Material: Polypropylene
- Finish:- Transparent

Logistics

- Packed Weight: 250 grams
- Packed Dimensions: (w) 250mm
(l) 250mm
(d) 70mm
