

PRESS NOTE**PRYSMIAN HONORED AT AMCHAM'S TRANSATLANTIC AWARD GALA DINNER FOR ITS INVESTMENT IN ENCORE WIRE**

Milan, 2nd December 2025 - Prysmian has received the prestigious Transatlantic Award 2025 for its €245 million investment aimed at expanding the production capacity of the Encore Wire site in Texas. The award was presented during the Gala Dinner organized by the American Chamber of Commerce in Italy (AmCham Italy).

Francesco Gori, Chairman of Prysmian, stated: "Receiving this award from the American Chamber of Commerce is truly an honour: it is the second recognition we have been granted within a few years. Our leadership is largely due to the United States, where in recent years Prysmian has completed three strategic acquisitions: General Cable, Encore Wire and, more recently, Channell."

Gori added: "All of this has been made possible thanks to a constantly growing market that embraces innovation and enables us to look to the future with optimism. We will continue to invest in the United States, which for Prysmian represents nearly half of our revenues, one-third of our approximately 33,000 employees worldwide, and one-third of our shareholders. We therefore look to America with great confidence."

The acquisition of Encore Wire, completed in July 2024 for €3.9 billion, confirms Prysmian's strategy of strengthening its presence in the U.S. market. The operation marks a decisive step in the modernization of U.S. energy infrastructure, supporting the growing demand from data centers and other drivers of electrification, such as the reshoring of industry.

Prysmian

Prysmian is a global cable solutions provider leading the energy transition and digital transformation. By leveraging its wide geographical footprint and extensive product range, its track record of technological leadership and innovation, and a strong customer base, the company is well-placed to capitalize on its leading positions and win in new and growing markets. Prysmian's business strategy perfectly matches key market drivers by developing resilient, high-performing, sustainable and innovative cable solutions in the segments of Transmission, Power Grid, Electrification and Digital Solutions. Prysmian is a public company listed on the Italian Stock Exchange, with almost 150 years of experience, over 33,000 employees, 107 plants and 27 R&D centers in over 50 countries, and over €17 billion of revenues in 2024.
