

PRESS RELEASE

PRYSMIAN AT THE OFFSHORE TECHNOLOGY CONFERENCE 2018 IN HOUSTON, TX

HIGH TECH CABLE SOLUTIONS TO SUPPORT INNOVATION IN THE OIL & GAS INDUSTRY

PRYSMIAN WILL EXHIBIT ITS FULL PRODUCT RANGE FOR EXPLORATION & PRODUCTION APPLICATIONS

Milan, 27 April 2018 - Prysmian Group, world leader in the energy and telecom cable systems industry, will showcase state-of-the-art technologies at the Offshore Technology Conference 2018, taking place in Houston, TX, from April 30 to May 1 (booth 3653).

The Prysmian stand will feature our full portfolio of cable systems for the offshore Oil & Gas industry, including solutions for power transmission, distribution, instrumentation and control, together with Submarine cables. Examples of Core Cable solutions and Umbilicals will be on display alongside our new generation of integrated cable and protector solutions for Electrical Submersible Pump (ESP) applications.

Prysmian has pioneered the development of reliable ESP cables for more than thirty years and its success in the market with major oil field service companies has been a product of the continuous stream of innovations from the Group's research and development teams. In a continuously challenging market, extended operating lifetime of an ESP cable is critical to ensure economic production. Prysmian has created a family of products that operate in the harshest environment and we are committed to invest to help operators extend the operating life of our ESP cables.

Technical and application specialists will be on hand to discuss visitors' needs and to recommend our best solution. Visitors will also be able to explore the Prysmian Cable Solutions, SURF and PDT offers at one of the two kiosks, where they can use our click-to-view application to find the most suitable Prysmian solution for their application.

For additional information, please visit the Prysmian Oil & Gas area at Prysmian Group website www.prysmiangroup.com that features not only the Prysmian click-to-view animations, but also over 110 product datasheets, videos, customer application stories and details of our latest advances and new products.

Prysmian Group

Prysmian Group is world leader in the energy and telecom cables and systems industry. With almost 140 years of experience, sales of about €7.5 billion in 2015, over 19,000 employees across 50 countries and 88 plants, the Group is strongly positioned in high-tech markets and offers the widest possible range of products, services, technologies and know-how. It operates in the businesses of underground and submarine cables and systems for power transmission and distribution, of special cables for applications in many different industries and of medium and low voltage cables for the construction and infrastructure sectors. For the telecommunications industry, the Group manufactures cables and accessories for voice, video and data transmission, offering a comprehensive range of optical fibres, optical and copper cables and connectivity systems. Prysmian is a public company, listed on the Italian Stock Exchange in the FTSE MIB index.
