

Termination box PK-300

Prysmian Part Number: See the table

Termination box PK-300 is a metallic cabinet with a lockable door. Termination Box PK-300 is designed for the termination and distribution of various types of fibre optic cables in indoor installations. Termination box is wall-mountable and dust-proof. A patch panel divides the box into splicing and cross-connection sections.

Features and Benefits

- Metallic and powder painted termination box with lockable door.
- Divided by a patch panel to two, splicing and cross-connection, sections.
- Splicing section is protected with a separate door and has capacity for 120 splices with max 5 splice trays with 24 splices/splice tray.
- Patch panel for 48 SC, or LC-D (LC-duplex) connector adapters.
- Splicing section has six cable entrances, three on top and three on bottom.
- Cross-connection section has entrances plates in up and down directions for several cable entrances.
- Dimensions 480 mm x 400 mm x 155 mm (W x H x D)
- Weight 11 kg
- IP 54
- Termination box units are available with different combination of materials. See separate datasheet of PK-300 units.

Ordering codes:

Product name	Part number
PK-300 SC	XCPSC01559
Splice tray KT-1412/24	XJTSC00884

Basic configuration:

Metallic termination box with lockable door
Mounting and grounding bar
One splice tray
Entrance material for one outdoor cable

According to unit capacity:

Splice Trays
Splice Protectors
Cable entry port materials

Additional materials:

Connector adapters
Pigtails (cord type)
